A Special Booklet on
The Japanese Yews

has been published by the D. Hill Nursery Company and will be mailed to any one interested, on request. This booklet contains illustrations of all the well known varieties of Yews and valuable cultural information. The Hill Nursery is striving to build up a large stock of various Yews, as it is our belief that in the future these trees will become the most highly regarded of all the ornamental evergreens.

Each x indicates one transplanting.
50 of same variety and size at 100 rate; 250 at 1,000 rate.

HILL CHOICE EVERGREEN GRAFTS

Success in the nursery business depends upon PLANNING AHEAD. Right now it is vitally important to prepare for the increase in business which is most certainly coming. If you expect to be selling evergreens three or four years hence, you **MUST PLANT NOW**.

Choice Varieties Will Pay

The following choice assortment of Junipers are all grafted only on good Juniper understocks. Grafts are extra strong and sturdy. Each tree is knocked out of the pot and individually wrapped to be delivered in perfect order.

Remember there are no better Evergreens than Hill's!

\$30.00 per 100

Pinus tanyosho (Japanese Table Pine).....
Pinus sylvestris wateriana (Waterer Pine).....
Pinus virginiana prostrata.....

HOW WE MEASURE SIZES

The sizes quoted in all Hill Evergreens represent the height of the tree above the earth ball. For instance, 2 to 3 feet means the trees will average 2 1/2 feet high, not counting the extreme tip or the earth ball. In the case of creeping trees and dwarfs, the size quoted is the width of the tree.
